10 Read the following text and decide if the statements below are true or false according to the text.

In reply to a member of the planning committee Mr Smith said that when she had explained the effects the new airport might have on the traffic going through Littlehampton she had said that there would not be more noise and dirt than there is at present. He wanted to know if that meant that she expected all future passengers to walk to the airport. She ought to know that British Rail had closed down Littlehampton station 3 years ago, and that there were no plans to open it again and to extend services to the airport. He pointed out that there would only be the main road through Littlehampton to the airport, and that everyone would have to go there by car or by bus. He regretted to say that he doubted the sincerity of her arguments.

- a A new airport is going to be built near Littlehampton.
- b Mr Smith is sure that the road traffic through Littlehampton will increase as soon as the airport opens
- c An extension of the railway line to the airport is planned.
- d The planning committee expects future passengers to walk to the airport.
- e Mr Smith does not believe what the expert says about the future traffic situation.
